

Capalmages for CapalInstaller

Capalmages - The Fastest Way to an Always Updated Windows Image.

Tired of spending time and resources to keep your Windows Images fully updated?

The combination of Capalmages and CapalInstaller puts you in the driving seat when it comes to secure security. With Capalmages you can skip the monthly security update of your images and let CapaSystems handle that.

SECURITY UPDATES

The large amount of security patches and new builds has increased over the years. This has raised a constant need to update Windows images, which is a time-consuming task. The constant need for updating the Windows OS Images has become a time-consuming task. CapaSystems monitors releases of patches and builds for you and ensures that you are informed as soon as new images are ready for download.

YOUR ACCESS TO UPDATED WINDOWS IMAGES

Capalmages for CapalInstaller makes it easy, cheap and fast for you to be up-to-date with the security updates and patches for your Windows Images.

Capalmages - The Fastest Way to Always Updated Windows Images

CapaImages for CapaInstaller

CAPAIMAGES LETS YOU:

- Be sure that your Windows Images have all necessary security updates.
- Save time and resources on preparing and creating new images.

If you want to avoid reinstallation when Microsoft releases a new Windows 10 build, we recommend that you combine CapaImages with CapaWinUpgrade.

DELIVERY RESULTS

You download pre-prepared standard images from a website where CapaImages for CapaInstaller are available. Images are created and thoroughly tested by experienced CapaSystems consultants who know and understand the needs of end-users as well as CapaInstaller administrators.

CapaSystems Images

Which images are available?

- Windows 7 - Enterprise – DA/EN - 64-bit
- Windows 10 - Enterprise – DA/EN - 64-bit
- Windows 10 - Professional – DA/EN - 64-bit

It is always the latest version of Windows 10 (e.g. 1809) that is kept up to date.

All images are 100% hardware-independent, created in a virtual environment and built in workgroup, thus there are no traces of domain policies or similar settings.

It is a prerequisite that you as a customer have a valid Windows license agreement with Microsoft.

A subscription to CapaImages is signed for a minimum of 1 year at a time.

All images will be available on <https://capapacks.capasystems.com/#/login>

Should thereafter be individual customization, CapaSystems' consultants will of course be available if you do not want to spend time on this.
